

GENERAL MANAGEMENT

Based on 2022-23 Undergraduate Catalog

GENERAL MANAGEMENT AS AN UNDERGRADUATE MAJOR

The general management major enables students to choose a variety of business management courses with the greatest flexibility after core course requirements are met. The major is ideal for students who are not ready to specialize early in their careers. General management majors take courses in accounting, information systems, finance, leadership, organizational behavior, marketing, operations management and business policy. Students who intend to enroll in a specialized graduate program often consider this major.

MAJOR REQUIREMENTS FOR A BACHELOR OF SCIENCE IN GENERAL MANAGEMENT

To fulfill the requirements for the major in general management, students must be admitted to major standing, complete the core program, ORG 4310, and a minimum of 11 additional credits in electives, with a grade of C or better in each major course.

The electives may be chosen from any area within the School of Business Administration (courses beginning with ACC, ECN, ENT, FIN, MGT, MIS, MKT, ORG, POM or QMM) and must be chosen from courses numbered 3000 or higher; at least six credits must be at the 4000 level, which includes ORG 4310. Please see the course catalog for further description on the variety of elective opportunities. In addition to required classes in university general education, U.S. diversity and composition, and the business pre-core and core program, the requirements for a general management major are below:

REQUIRED major course

MGT 3990 ACHIEVE III General Management
ORG 4310 Leadership and Group Performance

General management majors may choose courses from different business areas to fulfill their requirements. Students may also choose a theme to their major elective choices and earn a business-related minor, which would be built right into their General Management major. Popular minors for General Management students include Entrepreneurship, International Management and Business Analytics. Minors like these can be included within the major requirements, allowing a student to earn a minor with no extra tuition cost or extended time until graduation.
