Dear Dr. Jafri,

Almost four years ago we were introduced to a mentor who continuously stood by our side, encouraging us to persevere and stay optimistic through the hardest times of med school. You would meet with us privately allowing us to open up about our worries and struggles. Your comfort and hospitality were priceless and so very appreciated. Thank you for your time and energy, your guidance helped smooth out a bumpy and tumultuous time.

At our first PRISM session you asked us to write down on the sign-in sheet what medical specialties we were most interested in. Just a couple of months ago, you shared with us that same sign-in sheet. It really touched our hearts.

We will always treasure the great many laughs we've had together. You have been a positive, unforgettable source of inspiration through some of the most difficult parts of what is the start of our burgeoning medical careers.

We are extremely fortunate and grateful to have had your mentorship. We are saddened that you will not be hooding us, but want you to know that we will carry a piece of you forward into our medical training.

We love you Dr. Jafri!!

The "King Jafri" PRISM group
