

TREASURER'S REPORT

1. **Division and Department:** Finance and Administration, Budget and Financial Planning, Treasury Management, and Facilities Management
2. **General Fund Budget Performance:** Fall enrollment is tracking with the budgeted Fiscal Year Equated Students (FYES). As approved by the Board of Trustees (Board) within the FY2011 budget, one percent of net tuition revenues are being reserved to address a potential mid-year appropriation reduction and/or to help limit a FY2012 tuition increase. The State higher education budget was finalized and resulted in a funding decrease of 2.8%, as compared to the prior year. The University's budget reflects a 3.1% funding decrease, resulting in a State appropriation of \$177,000 higher than anticipated. Similar to the tuition reserve noted above, and as approved by the Board, the \$177,000 will be reserved to address a potential mid-year appropriation reduction and/or to help limit a FY2012 tuition increase. Overall General Fund expenditures are within budget with no deficits or major spending variances in any division or unit.

A monthly budget monitoring process managed by the Budget and Financial Planning Office helps ensure budget management accountability.

3. **Investment Performance:** A summary of the results of the University's pooled cash and endowment investment activities is presented in the *Cash and Investments Report, October 31, 2010 and 2009* (Attachment A).

Portfolio investment returns from both pooled cash and the endowment exceeded the composite benchmarks for both the quarter ending September 30, 2010 and month ending October 31, 2010.

The liquidity of both pooled cash and endowment investments remains strong. The University's investments are being managed according to Board policies and approvals.

4. **Debt Management:** The *Capital Debt Report, October 31, 2010* (Attachment B) shows the University's outstanding principal, rate of interest, weighted average cost of capital, type of debt, annual debt service, maturity, and purpose of each debt issuance, and a section with information about the University's two swap arrangements. The University's debt is being managed according to the Board's policies and approvals.

5. **Construction Projects Progress Report:** The *Construction Projects Progress Report, October 31, 2010* (Attachment C) includes budget information, source of funding, forecasted final costs and comments for all ongoing capital projects above \$500,000, as required by Board policy. All projects have been properly approved and are within budget.

Debt covenant compliance:

The University has a general revenue covenant in many of its borrowing agreements including bonded debt and other capital debt.

This covenant is consistent in all University debt agreements and commits the University to maintain "General Revenues" to exceed the sum of twice annual debt service on senior debt and one times annual debt service on subordinate debt each fiscal year. At June 30, 2010, the University recorded \$194,782,000 in qualified General Revenues while the calculated debt service covenant requirement amounted to \$17,832,000. The University exceeds its debt covenant requirement by a multiple of 10.9.

	<u>Counterparty</u>	<u>Notional Amount</u>	<u>Termination Present Value</u>	<u>Counterparty Rating</u>	<u>Purpose/Comment</u>
Debt-Based Derivatives:					
Constant Maturity Swap (CMS)	JPMorgan Chase Bank	\$ 34,370,000	\$ 3,456,939	Aa1	Yield curve swap paying about \$50,000 per month.
Interest Rate Swap - Synthetically Fix 2008 Bonds	Dexia Credit Local	53,280,000	(7,965,274)	A1	Current low variable rates = High termination costs.

The CMS is performing as expected because the yield curve is relatively normal at this time.

The Interest Rate Swap is stabilizing total interest cost on the 2008 Bonds at less than 4%. Current extremely low variable interest rates (0.28% annualized) drive up present values to terminate.

The Termination Present Value is dynamic, changing daily depending on interest rates and eventually becoming zero at the end of the swap agreement.

This swap however does fix the interest rate paid on the bond issue at 3.373% for the life of the bond issue (and the swap agreement).

Oakland University's underlying credit rating, according to Moody's Investors Service's Global Rating Scale is A1 = Stable.
