OUWB Student Printing

OUWB is implementing a program called PaperCut to facilitate our new student printing solution. PaperCut, along with the Konica Minolta Bizhub, will provide students a secure printing solution, as well as the ability to make copies and scan documents directly to their email. The Konica Minolta Bizhub print stations are located in the OUWB student lounge and at the Kresge medical library. Students should see that a printer named: **OUWB PaperCut Printing** has been added to their list of available printers and an application called PCClient has been added to their Application folder. If the application or printer is not on your list, please email <u>medhelp@oakland.edu</u> for assistance in obtaining them.

OUWB will provide each student with an account balance of \$100 to use towards their print or copy jobs for that academic year. With each print or copy job, an automatic deduction, based on the table below, will be made against the student's account balance. On July 1st, each year thereafter, account balances will be **reset** to \$100. The per page printing and copying fees are as follows:

Per Page Print/Copy	Single-Sided	Double-Sided	
Grayscale	.08	.12	scanned documents
Color	.20	.36	

If within the academic year, students use up the initial \$100 allotment and still have printing needs, students may add **personal funds** to their PaperCut account. Any unused **personal funds** in an account as of June 30th, will roll over and be added to the auto balance of \$100 on July 1. **Added personal funds are non-refundable**, so only add as much as needed to get through the academic year. To add personal funds to a print account, please email <u>medhelp@oakland.edu</u>.

If there is an issue with the Konica Minolta print station, please email <u>medhelp@oakland.edu</u> for assistance. Paper will be checked on a regular basis and some will be stored in the cabinets next to, however, if paper is needed, please email Diane Reed at <u>dianereed@oakland.edu</u>.

There are two ways to release a print job sent to the queue. One way is through the PaperCut web interface and the other is at the print station via the touchpad. Please see directions below.

<u>Print</u>

In order to print, you must be **on campus with your laptop and connected to the Grizznet-Secure wireless network**. Instructions to connect can be found here: <u>https://kb.oakland.edu/uts/Connecting_to_Grizznet_Secure</u>

Send a print job:

- 1. Launch the PaperCut app (PCClient) found in the Applications folder on your laptop.
- 2. Upon launch, you will be presented with this window. Use your NetID credentials to login.

• •			Login		
Ρ	egin Your login	credentials are requi	red for printer a	ccess.	
Pies	ise log in u Isername: [ing your network us	emane and pas	isword to confirm your	identity.
	assectu.	Remember my ide	ntity		
				Cancel	OK

3. Upon successful login, this window will appear in the menu bar of your desktop showing your current balance.

Click on **Details** to log into the PaperCut web interface (netid password). You will see the print rates, your print and copy history, and have the ability to release your print jobs from the queue (no touch printing)

- 4. Now you may send any print jobs that you have to the printer: OUWB PaperCut Printing.
- 5. Your print job will wait in the queue for up to 24 hours. After 24 hours, the print job will be automatically deleted.
- 6. When you send a print job, the following window will pop-up. Use your NetID credentials to authenticate and choose the length of time your credentials remain active. (use for multiple print jobs)

7. Once your print job is on the server, you will see this confirmation message.

	PaperCut MF - Message
~	ATTENTION
	Your document has been held in a queue. Before the document will be printed, you will need to log into the web interface provided or a release station and release your document.
	ОК

Release a print job via PaperCut Web Interface (No touch printing)

1. Release your print job by clicking on Details in the balance pop up window (no touch). To get the balance

pop up window back, click on PaperCut icon in the menu bar.

- 2. Select Jobs Pending Release at left column
- 3. Here you can select either Print or Cancel for each of your print jobs in the queue
